

From the Philadelphia Evening Journal.

Emigration to Hammonon New Jersey. The emigration still continues to this new settlement. The present season the crops are excellent. Grapes and peaches will yield well. The grape will yield largely. Some forty vineyards have recently been set out.

Considering that this locality is entirely secure from blighting frosts, it presents great inducements for profitable farming to those who must leave. The loss of wealth to farmers in the North, from frosts, amounts to incalculable millions, whilst the coldness of their climate also debars them from raising of the most profitable crops.

This New England settlement is undergoing vast improvements, and increase of population. We understand that within the past year the population has increased some 1500. In a business way the improvement is even more marked.

We learn that some parties think of starting the shoe business in this vicinity. Inasmuch as shoe manufacturers go to the markets of Philadelphia and vicinity to buy their leather, and then sell their shoes, there is no reason why the shoe business cannot be carried on to great advantage in this country.

Horse Killed by a Swarm of Bees.

On Monday last a horse belonging to George Smith, of Middlefield, Mass., was attacked by a swarm of bees. The bees were driven off, but the horse appeared in intolerable pain and entirely insensible to surrounding objects. His groans could be heard a quarter of a mile off.—He lived in this condition for five hours, when he died.

A number of ladies at the Dress Reform Convention at Auburn, N. Y., declared for "the Bloomer dress, or nothing." So if the Bloomer fails, we may expect the alternative.

Rev. John Pierpont, who is a believer in Spiritualism, relates the following: "An acquaintance, in Boston had an important lawsuit; he employed eminent counsel, but for greater certainty he applied, through a medium, to the spirit of his old lawyer, Daniel Webster. The spirit gave advice contrary to that of his earthly counsel, and he took the advice of the spirit, and the result was that he recovered \$8,000, which he probably would not have recovered by the other process." And he had to pay Daniel no retainer or counsel fees.

NEW AGRICULTURAL SETTLEMENT.

To all waiting Farms. A RARE OPPORTUNITY IN A DELIGHTFUL AND HEALTHY CLIMATE 25 MILES SOUTH-EAST OF PHILADELPHIA, ON THE CANDEN AND ATLANTIC RAILROAD, NEW JERSEY.

An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the middle States and New England have settled there the past year, improved their places, and raised excellent crops. The price of the land is at the low sum of \$15 to \$20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. It is considered the best Fruit soil in the Union.—The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been, that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET, as the reader may perceive from its location, is the BEST IN THE UNION.

Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of comfort and civilization is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest. (In the West this is reversed) he has schools for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand; and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, the Railroad Company gives a Free Ticket for six months, and a half-price Ticket for three years.

THE TOWN OF HAMMONTON

In connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufactories. The Shoe business could be carried on in this place and market to good advantage, also cotton business, and manufactories of agricultural implements or Farm tools for cutting small articles. The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell small ones, as it would effect the improvement of the place, can be had at from \$100 and upwards.

The Hammonon Farmer, a monthly literary and agricultural sheet, containing full information of Hammonon, can be obtained at 25 cents per annum. Title indisputable—warranted deeds given, clear of all incumbrance when money is paid. Route to the land: leave Vine street wharf, Philadelphia for Hammonon by Railroad, at 7 1/2 A. M., or 4 1/2 P. M. Fare 90 cents. When there inquire for Mr. Byrnes. Boarding conveniences on hand. Parties had better stop with Mr. Byrnes, a principal until they have decided as to purchasing, as he will show them over the land in his carriage, free of expense. Letters and applications can be addressed to Landis & Byrnes, Hammonon P. O., Atlantic Co., N. Jersey, or S. B. Coughlin, 202 South Fifth Street, Philadelphia. Maps and information cheerfully furnished. July 14, 1859.—6m.

The undersigned beg leave to announce to the citizens of Stroudsburg and vicinity that they have opened a

SALOON,

where they offer an assortment of first class Confectionery, Fruits, Nuts, &c. which surpasses in point of excellence anything of the kind heretofore offered in this place.

In the Baking department they have secured the services of Mr. SAMUEL HOFFMAN, whose ability in that line is too well known to need any recommendation.

They will furnish BREAD AND CAKES, of a superior quality, every afternoon, at the doors of their customers, without extra charge. They will also keep

Ice Cream of a variety of flavors, Strawberries and Cream, SPARKLING SODA WATER, and Albany Imperial Cream Ale, drawn fresh and cool from superior fountains.

Fresh Oysters, in season, will be served up in every style.

With a determination to spare no effort to please they respectfully solicit a share of public patronage.

CHARLES M. PRICE, L. H. DRAKE. April 1, 1859.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children into the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or noxious matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but are far less powerful to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many of the most distressing diseases, such as Rheumatism, Gout, Gravel, Dropsy, Brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla.

The most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul deposit from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BRUISES and BOILS, TUMORS, ULCERS, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPENSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their purgative properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with physical debility is actually enabled to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Coughs, Hoarseness, Headache, indigestion, Pain in a Disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never be forgotten, and produced cures so numerous and so remarkable to be forgotten.
